### Cambay PSC Production Update

---

Synergia Energy Limited (“**Synergia**” or the “**Company**”), announces the following update regarding its Cambay PSC (WI: 50%), onshore India.

Production from the Cambay field saw a marked improvement from two legacy wells (C-64 and C-74) that were worked over in November 2025. Combined production from the C-64 and C-74 wells averaged 78 BOPD during February. Following recent increases in pump rates, the two wells have produced a March-to-date average of 195 BOPD. The C-77H gas well continues to produce on plateau at circa 500,000 scfd.
