PRINCIPLE 2 – STRUCTURE THE BOARD TO ADD VALUE

Recommendation 2.1

The Board has not established a separate Nomination Committee. The Board had adopted a *Nomination and Remuneration Committee Charter*, which describes the role, composition, functions and responsibilities of the committee. The Nomination and Remuneration Committee Charter is disclosed on the Company's website.

Items that are usually required to be discussed by a Nomination and Remuneration Committee are marked as separate agenda items at Board meetings when required, and when the Board convenes as a Nomination and Remuneration Committee, it carries out those functions which are delegated to it in the *Nomination and Remuneration Committee Charter*. These functions include addressing Board succession issues, and ensuring that the Board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities

effectively. The functions also include fulfilling the Board's corporate governance responsibilities with respect to remuneration by reviewing the Company's remuneration policy, senior executives' remuneration and incentives, the remuneration framework for directors and remuneration related reporting requirements. The Board deals with any conflicts of interest that occur when it performs the functions of a Nomination and Remuneration Committee by ensuring that any director with a conflicting interest is not party to the relevant discussions.

Recommendation 2.2

The following skills have been identified as the priority diversity and skill set which the Board wishes to see represented in its membership, which reflect the Company's focus on its assets located around the Indian Ocean rim, with a particular focus on applying tight oil/tight gas technologies from North America into the Cambay Field in Gujarat, India:

- International oil and gas industry experience.
- Capital markets experience.
- Corporate and commercial skills.
- Legal.
- Strategic Human Resources.
- Strategic Information Technology.
- Strategic Marketing.

Whilst the Board possesses some of these skills, the Board is looking to appoint an additional non-executive director and who will likely also chair the Board. This person will have significant public company experience in the junior oil and gas resources sector, be independent and possess the strategic skills the Board is seeking. The Board had requested that female candidates are presented for this position.

The Company's *Induction Program* is disclosed on the Company's website.

The Board, performing the functions of the Nomination and Remuneration Committee, regularly reviews whether the directors as a group have the skills, knowledge and familiarity with the Company and its operating environment required to fulfil their role on the Board effectively. Where any gaps are identified, the Board considers what training or development should be undertaken to fill those gaps. In particular, the Board ensures that any director who does not have specialist accounting skills or knowledge has a sufficient understanding of accounting matters to fulfil his or her responsibilities in relation to the Company's financial statements.
